DETAILED ACTION

Response to Arguments

1. Applicant's arguments in light of the amendment, filed 08/29/2007, with respect to claims 1 and 3-5 have been fully considered and are persuasive. The prior art rejections of claims 1 and 3-5 have been withdrawn.

Allowable Subject Matter

2. Claims 1 and 3-5 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, ***all*** the limitations of the independent claim(s) (*claim 1*), particularly a communication control device having a two stage buffer where a control unit sends a resume signal from a peripheral device to a host and the host subsequently sends a transmission approval command from the host to the peripheral, enabling the second stage of the two stage buffer to transfer data to the first stage, and the first stage of the buffer to transfer data to the host.

Conclusion
